# Aftershocks add to fear in Nepal

**■ Landslides hinder rescuers; over 2,500 dead**  
By Binay Sunbancharya and Katy Dudge  
KATHMANDU, Nepal — Shook and shivering in the streets, tens of thousands of Nepalese braced against terrifying aftershocks Sunday while digging for survivors in the devastation wrought a day earlier by a massive earthquake that ripped across this Himalayan nation and killed more than 2,500 people.  
Aftershocks rumbled above the nation's most renowned Hindu temple, where dozens of bodies were being cremated at any given time.  
Aid groups received the first word from remote mountain villages — reports that suggested many communities perched on mountainsides were devastated or struggling to cope.  
Landslides hindered rescue teams that tried to use mountain trails to reach those in need, said Prakash Subedi, chief district official in the Gorkha region, where the quake was centered.  
"Villages like this are

## Mental state key to trial

■ Holmes' path from scholar to shooter unclear

By Sadie Gorman  
Associated Press  
CENTENAL, Okla. — James Holmes was giving volatile well before he put on a gas mask and body armor, strapped on a rifle, shotgun, pistol and ammunition, and slipped into a midnight premiere of the Batman film "The Dark Knight Rises."

He was a sought-after neuroscientist-in-training, but he was falling apart. He told a classmate he wanted to kill people, prosecutors say. He fell out of favor with his professors, who suggested he find a new career. He dropped out of his psychiatry, then sent her text messages threatening that she alerted University of Colorado campus police. He even mailed her his journal, in a package with barbed wire. Months before Holmes opened fire on the audience on July 20, 2012, killing 12 and injuring 70 more in one of America's deadliest mass shootings, the 24-year-old doctoral student was preparing for violence.  
He stockpiled weapons, ammunition, tear gas grenades and riot gear, and rigged his apartment to become a potentially lethal booby trap, cranking his door into an apparent attempt to lure someone into opening his door. One neighbor who came to complain narrowly avoided a fiery explosion by walking away.  
Many observers hope Holmes' death penalty trial beginning Monday will finally show what twisted a seemingly dedicated scholar into a sadistic killer. Prosecutors have suggested he was angry over his academic
